

FAST Accounting & Finance Department

IT Staff / Lab Engineers Information Security Form

Purpose: To collect technical information on hardware, software, access controls, backups, and security practices for ISMS (ISO 27001).

SECTION A: GENERAL INFORMATION

Name: Dr. Farah Khan
Designation: Asst. Prof.
Date: Nov 24, 25

SECTION B: HARDWARE INVENTORY

1) List the main A&F Fintech hardware you manage or use.

- ☒ Lab PCs (Number: _____)
- ☐ GPU / High-Performance Machines
- ☒ Department Servers
- ☒ NAS / Storage Devices
- ☒ Printers / Scanners
- ☒ Routers / Switches
- ☒ UPS / Power Backup
- ☒ Biometric or Access Devices
- ☐ Other: _____

SECTION C: DEPARTMENT SERVERS/STORAGE

2) Does the Fintech Department have its own servers or storage systems?

- ☐ Yes
- ☒ No

If Yes, where are they kept?

- ☐ Server Room
- ☐ Lab
- ☐ Faculty Office
- ☐ Other: _____

What data is stored on them?

- ☒ Student Data
- ☒ Lab Images / PC Configurations
- ☐ Research Data
- ☒ Backups
- ☒ Logs
- ☒ Software Installers / Licensing Data
- ☐ Other: _____

SECTION D: LOGIN & ACCESS CONTROL

3) How do logins work on lab PCs?

- ☐ Shared Accounts
- ☒ Individual Student Accounts
- ☐ Individual Faculty Accounts
- ☐ Only Admin Login Allowed
- ☒ Other: LAB user for students. / Lab user for

4) Who has admin access to lab PCs or servers?

- ☐ Lab Engineers
- ☒ Department IT
- ☐ FAST Main IT
- ☐ Faculty (limited)
- ☐ Other: _____

How is admin access approved & removed?

Administrator access is not allowed for students.
Administrator access not allowed for
students.

SECTION E: SOFTWARE INVENTORY

5) What software/tools are installed in the ^{A3F}Fintech labs?

- ☒ Windows / Linux OS
- ☒ MS Office
- ☐ Python / Anaconda
- ☐ R / RStudio
- ☒ Databases (MySQL / PostgreSQL / SQL Server)
- ☐ Fintech Tools (Trading Simulation, Bloomberg API, etc.)

☒ Programming Tools (VS Code, PyCharm, IntelliJ, etc.)

☐ Licensed Statistical/ML Software

☐ Open-Source Utilities

☐ Other: Peach tree, Oracle, Eviews, Stata, R.

2. Peach Tree, Oracle, R

SECTION F: ANTIVIRUS & PATCHING

6) Are antivirus updates and system patches applied on lab PCs and servers?

☒ Yes

☐ No

If Yes:

Frequency of updates:

☐ Daily

☐ Weekly

☐ Monthly

☒ Occasionally

Who performs updates?

☐ Lab Engineers

☒ Department IT

☐ FAST Main IT

☐ Automatic Updates

☐ Other: _____

SECTION G: BACKUP PRACTICES

7) Is any Fintech Department data backed up?

☒ Yes

☐ No

If Yes, what is backed up?

☐ Lab PC Images

☐ Server Data

☐ Research Data

☐ Student Submissions

☐ Configuration Files

☐ Other: Students personal data, University related data.

Backup Frequency:

- ☐ Daily
- ☐ Weekly
- ☐ Monthly
- ☒ No Fixed Schedule

Backup Storage Location:

- ☒ Local Storage
- ☐ Server
- ☐ Cloud
- ☐ External HDD / NAS
- ☐ Other: _____

SECTION H: LOGGING & MONITORING

8) Do you maintain system or network logs?

- ☒ Yes
- ☐ No

If Yes, what logs do you collect?

- ☒ User Login Logs
- ☒ Network Usage Logs
- ☐ Antivirus Logs
- ☒ System Errors / Crash Logs
- ☒ Firewall Logs
- ☒ Lab PC Usage Logs
- ☒ Other: Lab PC's, monitoring as well.

Who reviews these logs?

- ☒ Lab Engineers
- ☒ Department IT
- ☐ FAST Main IT
- ☐ Not Reviewed Regularly
- ☐ Other: _____

SECTION I: COMMON TECHNICAL / SECURITY INCIDENTS

9) What technical or security incidents do you commonly observe? (Top 3)

- ☐ Virus / Malware Issues
- ☒ Unauthorized Software Installation
- ☐ Students Tampering with Systems
- ☐ Network Misuse
- ☒ System Crashes / Hardware Failure
- ☐ Forgotten Passwords
- ☐ Data Loss / Deleted Files
- ☒ Unauthorized Access Attempts
- ☐ Software Piracy / Illegal Tools
- ☐ Other: _____

SECTION J: EXISTING SECURITY CONTROLS

10) What security controls currently exist in ^{ANF} Fintech labs?

- ☒ CCTV Monitoring
- ☒ Room Locks
- ☐ Access Card Restrictions
- ☒ Firewall Rules
- ☒ Antivirus Software
- ☐ Disabled USB Ports
- ☒ Limited User Privileges
- ☒ Network Segmentation
- ☒ Password Policies
- ☒ Logging & Monitoring Tools
- ☐ UPS / Power Protection
- ☐ Licensed Software Usage
- ☐ Other: _____

SECTION K: SECURITY GAPS

11) Are there any security gaps or weaknesses you think should be fixed?

IT s/v

Date: _____

Dr. Falak Khan .

Nov 24, 25

FAST Accounting & Finance Department

HOD (Managerial Authority) Information Security Form

Purpose: To collect managerial-level information for ISMS (ISO 27001) implementation.

SECTION A: GENERAL INFORMATION

Name of HOD: Dr. Falak Khan
Date: Nov 24, 2025
Department: FAST Fintech Department
Filled by: Dr. Falak Khan

SECTION B: DEPARTMENT ACTIVITIES

1) What are the main academic and operational activities of the Fintech Department?

(SELECT ALL THAT APPLY)

- ☒ Teaching (Courses / Lectures)
- ☒ Fintech Lab Sessions (Programming, Trading Simulation)
- ☒ Student Projects (Semester Projects / FYPs)
- ☒ Research Work
- ☒ Industry Collaboration / Training Sessions
- ☒ Workshops / Seminars
- ☒ Academic Data Handling (Grades, Exams, Attendance)
- ☒ Administrative Tasks
- ☐ Use of Specialized Fintech Software/Tools
- ☐ Other: _____

SECTION C: LOCATIONS UNDER DEPARTMENT CONTROL

2) Which physical and digital locations fall under Fintech Department responsibility?

- ☐ Fintech Computer Labs
- ☒ Classrooms used by Fintech
- ☐ Faculty Offices

- ☐ Research / Project Rooms
- ☐ Departmental Server / Storage Room
- ☐ Shared Network Drives
- ☐ Cloud Systems (Google Workspace / Microsoft 365)
- ☐ LMS (Google Classroom / Moodle)
- ☐ Physical Document Storage Cabinets
- ☐ Other: _____

SECTION D: CRITICAL INFORMATION ASSETS

3) What are the most important information assets in the Fintech Department?

- ☒ Student Personal Data
- ☒ Exam Papers & Solutions
- ☐ LMS Data
- ☒ Grades / Assessment Records
- ☒ Research Data / Research Proposals
- ☐ Fintech Lab System Configurations
- ☒ Teaching Material (Slides, Videos, Notes)
- ☒ Software Licenses / API Keys
- ☐ Network Devices
- ☐ Cloud Storage Accounts
- ☐ Other: _____

SECTION E: SENSITIVE INFORMATION

4) Which information/assets are MOST sensitive and must never be leaked? Why?

Asset Name: Student personal data, Industry as well as
 Reason: company dataset

-> because of NDA, we cannot share the
data shared by organization

SECTION F: STAKEHOLDERS

5) Who are the key users/stakeholders interacting with Fintech information?

- ☒ Students
 - ☒ Faculty Members
 - ☒ Lab Engineers
 - ☒ Department IT Staff
 - ☐ FAST Main IT Department
 - ☐ Administrative Staff
 - ☐ External Vendors / Cloud Providers
 - ☐ Industry Partners
 - ☐ Other: _____
-

SECTION G: EXTERNAL COMPLIANCE REQUIREMENTS

6) Are there any external security or compliance requirements the department must follow?

- ☒ FAST University IT & Security Policies
 - ☒ HEC Guidelines
 - ☒ NDA / Confidentiality Requirements (Industry Data)
 - ☐ Vendor / Cloud Service Agreements
 - ☐ Data Privacy Rules
 - ☐ Software Licensing Agreements
 - ☐ Other: _____
-

SECTION H: CURRENT SECURITY CONCERNS

7) What are your top current information security concerns?

- ☒ Unauthorized System Access
- ☒ Weak Password Practices
- ☒ Lab Misuse by Students
- ☒ Data Leakage (Student/Exam Data)
- ☐ Malware / Virus Attacks
- ☐ Outdated / Unpatched Software
- ☐ Improper Data Sharing (WhatsApp / Email)
- ☒ No Backup Procedures
- ☐ Unsecured Cloud Accounts
- ☐ Lack of Monitoring / Logging
- ☐ Other: _____

SECTION I: PRIORITY SECURITY ISSUES

8) If you could fix only **THREE** security issues first, what would they be?

Highest Priority:

Unauthorized Access / Weak Passwords / Exam Data Security / Lab Misuse / Malware Issues / Backup Problems / Network Misuse / Lack of Logs

Second Priority:

Unauthorized Access / Weak Passwords / Exam Data Security / Lab Misuse / Malware Issues / Backup Problems / Network Misuse / Lack of Logs

Third Priority:

Unauthorized Access / Weak Passwords / Exam Data Security / Lab Misuse / Malware Issues / Backup Problems / Network Misuse / Lack of Logs

Why these issues? (Paragraph)

SECTION J: RESPONSIBILITY ASSIGNMENT

9) Who should be primarily responsible for security tasks?

- ☐ Fintech Lab Engineers
- ☐ Department IT Support
- ☐ Faculty Security Committee
- ☒ FAST Central IT Department
- ☐ Joint Responsibility (IT + Faculty + Admin)

SECTION K: EXPECTATIONS FROM ISMS

10) What are your expectations from ISO 27001 ISMS implementation?

Department Information Security

Management System (ISMS) Project: Record & Asset Assessment Form

Section 1: Department / Office Information

- Department Name: AnF AnF
- Office / Staff Responsible: _____
- Date of Record Assessment: _____

Section 2: Record & Asset Inventory

1. What types of records does your department maintain?
(Check all that apply and provide examples)

- ☒ Student Files (admissions, grades, transcripts)
- ☒ Financial Records (fee payments, scholarships, invoices)
- ☐ Project/Research Documents
- ☒ Letters / Correspondence
- ☒ Attendance Sheets
- ☒ Exam Files / Question Papers
- ☐ Other (please specify): _____

2. Format of Records:

- Paper
- Digital
- Both

3. Where are these records stored?

(Physical location, server/network drives, cloud storage, etc.)

4. Who normally has access to these records?

(List roles or names, e.g., admin staff, faculty, IT support)

admin staff, faculty → student data & IT support
all

Section 3: Security & Handling

5. How are sensitive papers (exam material, student files, financial info) secured?
(Locked cabinets, password protection, restricted access rooms, encryption, etc.)

6. Process for information requests:

(Who approves, how info is provided, documentation of request)

7. Have there been any incidents of missing, leaked, or mishandled documents?

- Yes → Please describe: _____
- No

8. Daily security habits or rules in place:
(E.g., locked cabinets, clean desk policy, restricted rooms, controlled digital access, logging of file movements)

Section 4: Notes / Additional Comments

Staff Signature: _____

Date: Nov 24, 25

F S M Software.

- ① IBM SPSS
- ② Eviews
- ③ Stata
- ④ Microsoft Visio
- ⑤ Power BI
- ⑥ Bizagi Process modular.
- ⑦ Endnotes.
- ⑧ Vscode
- ⑨ Visual Studio
- ⑩ MySQL
- ⑪ MySQL workbench.

Hardware Asset:

- Dell optiplex 8880
- i7-10gen
- with 512GB SSD.
- Accents Point (unify, Aruba).
- Hi Vision Camera
- Camera with voice

Server name = Datum
IP address = 172.16.100.104.

→ Datum server is
basically use for
accessing software.
